# KillDisk Systems

*Data Security Solutions*

## KillDisk Desktop

KillDisk Desktop brings a complete and affordable industrial-grade disk sanitation hardware solution to the consumer market. Highly customizable for any context, supporting U.S. DoD 5220.22 M erasure and fully automated operation, this system is a must-have for any organization with strong disk erasure requirements.

**Supports erasing:**

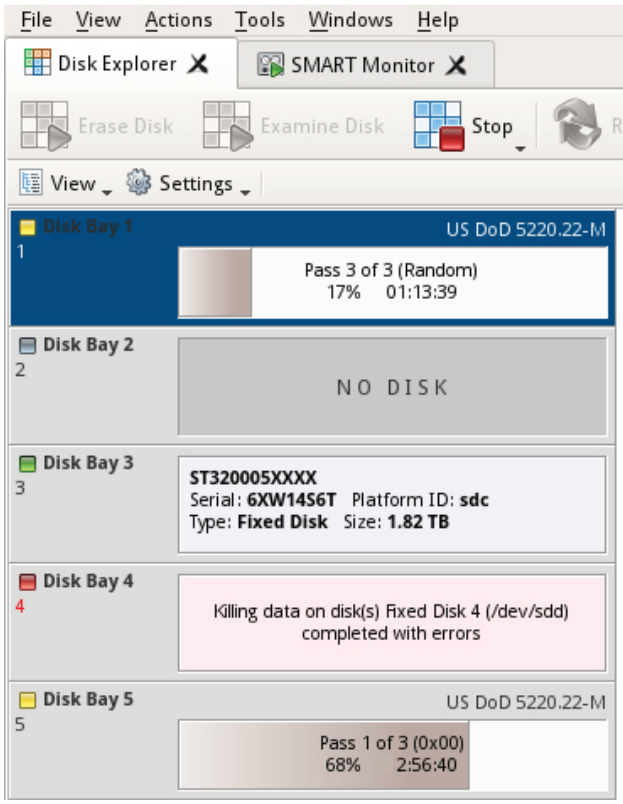
Hard Disk Drives & Solid State Drives

SATA/SATA II/SATA III disks (3.5" & 2.5")

USB flash drives via USB/USB3

External HDD/SSD disks via

eSATA or USB3



### KillDisk Desktop is a powerful toolset that deliver the following features:

- Automatically erase up to 5 disks in parallel
- Complete system control via LCM panel
- Supports 23 international disk sanitizing standards
- Automatic mode requires no user interaction
- Fully supports automated hot-swap operations
- Issue certificates, print labels & save XML reports
- Disk health examination & S.M.A.R.T. monitoring
- Advanced low-level Hex Viewer and Disk Browser
- Network accessible – print & store reports remotely
- (Optional) Graphical User Interface to control the system
- (Optional) Printer for erasure certificates and labels
- Disk LED lights indicate the progress of current operations

*You may erase as many HDDs/SSDs as you need without extra charges. There is no "charge per erase" policy in effect.*
